

NATIONALLY FEATURED ON

It is estimated that 200 million people in our world live with intellectual and developmental disabilities. Approximately 80% of these people are unemployed -- not because they can't work -- but because they are not valued, accepted or included in society. **Bitty & Beau's Coffee** opened in 2016 to show the world that people with disabilities can work and should be part of the economic fabric of society. Our current team of 100 employees operates four internationally recognized shops.

We are proud to be the OFFICIAL COFFEE OF THE RACHAEL RAY SHOW and 2017 CNN HERO OF THE YEAR
