

DRINK WELL DO WELL

LAViT

25+ Flavors. Still or sparkling.
Good for you. Better for the planet.

What is Lavit?

Lavit is the still and sparkling water cooler that offers 25+ flavors in 100% recyclable EcoCaps™. We take plastic bottles out of your office fridge and put fun and sustainability back on the table.

Welcome to the new wave of conscious consumption in your office.

Our Mission

Drink Well.

Because all of our drinks are either completely unsweetened or low calorie, we help eliminate unhealthy, sugary drinks from your office break room, keeping you happy and hydrated, all the livelong day.

Do Well.

We believe that environmental friendliness is just as important as workplace wellness, and we have worked hard to make sure our EcoCaps leave zero plastics and almost no carbon footprint.

Drop,

Tap,

Drink!

Magic in a Capsule

At the center of the Lavit magic is our EcoCap™.

We work hard to pack all the good stuff into one little capsule. The potency of vitamins and minerals deteriorate over time when bottled in plastic. With EcoCaps, we can ensure the vitamins and minerals in your drink do their jobs as efficiently as ever. The crack and peel technology of our EcoCaps ensure no cross-contamination between drinks, unlike other single-serve machines. All in the name of keeping you healthy, friends.

[No] More than Meets the Eye

With the Lavit machine, what you see is what you get. There is no hidden equipment, everything you need sits directly on your countertop.

Hydrate Happy

8 glasses per day? 64 oz? 3 liters? No matter your water intake, we'll make sure each glass is delicious.

More than anything, we want to encourage you to drink more water. It's no secret that staying hydrated is imperative to good health, and even to productivity. Even just mild dehydration can totally derail employees. And we know that sugary sodas can be a lot easier to reach for (and can certainly be more fun) than just water. But who says "healthy" and "fun" are mutually exclusive? With Lavit, you can choose a fun flavor and enjoy the same health benefits as water, and then some.

Taste from
brands you love,
enjoyed by
companies you trust.

“

I tried Lavit at my car dealership while waiting for an oil change. As weird as it may sound, I look forward to taking my car in for service just to be able to drink Lavit!

- Marla, Audi Customer

We absolutely love Lavit in our office. It's so easy to use and there are so many low calorie drinks. Folks barely touch the sodas and juices we have in our fridge anymore.

”

- Jeanine, Timberland

~8 MILLION TONS
OF PLASTIC ARE DUMPED
IN THE OCEAN EVERY YEAR.

93% OF AMERICANS TEST
POSITIVE FOR BPA

PLASTIC WASTE IN OUR OCEANS
WILL OUTNUMBER FISH BY 2050.

EVERY PIECE OF PLASTIC
EVER MADE STILL EXISTS.

THE GREAT PACIFIC GARBAGE
PATCH IS TWICE THE SIZE OF TEXAS.

LESS THAN 10% OF
SINGLE-USE PLASTICS
ARE RECYCLED.

Sustainable Sipping

There's no need for more plastic in this world, so we made EcoCaps 100% recyclable at the point of use. When you create your beverage from an EcoCap, the system flushes out the capsule, leaving a small piece of aluminum just one-seventh the size of a 12 oz. aluminum can. Drop the capsules right in your metal recycling bin and move on with your day, knowing you can now use the hashtag #zerowaste.

LAVIT

1ONE
DROP™

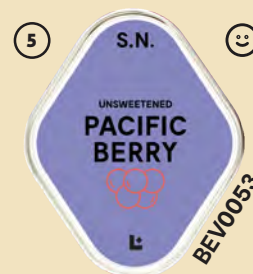

Give the Gift of Clean Water

We believe that everyone should have access to clean, safe water. For this reason, we are very proud to partner with the non-profit organization One Drop. One Drop builds wells for communities with limited access to clean water. With each EcoCap that is purchased, a portion of that sale is donated to One Drop. It only takes \$125 to provide someone with clean water for life, and we want to impact as many lives as we can.
